## CARRIER OBJECTIVE

---

To secure a challenging entry-level position as a Software Developer at a dynamic organization where I can leverage my skills in C, JavaScript, ReactJS, HTML, CSS, and Bootstrap, and collaborate with a team of experienced professionals to develop innovative solutions that solve real-world problems. As a passionate and driven individual, I am committed to continuous learning and professional growth, and I am excited to make a positive impact on the organization and contribute to its success.

## TECHNICAL SKILLS

---

**Languages** : JAVA, JAVASCRIPT, HTML, CSS  
**Frameworks** : REACT, TAILWINDCSS, BOOTSTRAP  
**Libraries** : MATERIAL, REDUX, REACT-ROUTER  
**Databases** : SQL  
**Dev Tools** : VISUAL STUDIO CODE, GIT  
**Soft Skills** : PROBLEM SOLVING, TEAM PLAYER, GOOD COMMUNICATION

## EDUCATION

---

University of Mumbai  
*Bachelor of Engineering in Computer Science*  
Secured 7.32 CGPI

Universal College of Engineering, Mumbai  
Aug 2018 – Aug 2022

## PROJECTS

---

- INoteBook:** ReactJs, NodeJs, MongoDB, Express [Source Code](#)
- A **CRUD application** exposed using a **RESTful API** made with Node.js.
  - Exposed **POST, GET and DELETE HTTP** methods using Express.
  - Implemented a user authentication system using **Node.js and MongoDB** to allow users to create accounts and securely log in.
  - Utilized **RESTful API** architecture to enable users to create, read, update, and delete notes, securely storing notes data in **MongoDB**.
  - Utilized **React Router** for smooth and efficient navigation between different views, allowing users to easily manage their notes.
- News Application:** ReactJs, Bootstrap, API [Source Code](#)
- Developed a dynamic web application using **ReactJS and Bootstrap**, allowing users to fetch and view news articles based on different categories
  - Implemented an API integration with a news **API** to fetch news data based on user-selected categories, utilizing asynchronous programming techniques and **RESTful API** best practices.
  - Added a custom **loader component** to enhance user experience by providing visual feedback during data fetching process, utilizing **CSS animations** and **ReactJS state management**.
- Tesla Clone Website:** ReactJs, Bootstrap, HTML, CSS [Source Code](#)
- Developed a replica of the Tesla website using **ReactJS and CSS**, closely mimicking the design of the original site.
  - Utilized **ReactJS components** to create a modular and **reusable UI**, improving **code maintainability** and reusability.
  - Implemented interactive features, such as sliders, car configurator, and navigation menus, using **ReactJS event handling** and state management.

## CERTIFICATIONS

---

- [Introduction to Front-End Development](#)
- [Completed Certification on SQL Database.](#)

## MANAGING SKILLS

---

Managed a group of 20+ students in an event called IEEE. The event was held in our college. The students were there to showcase their projects for the competition.
