## CARRIER OBJECTIVE

---

To secure a challenging entry-level position as a Software Developer at a dynamic organization where I can leverage my skills in C, JavaScript, ReactJS, HTML, CSS, and Bootstrap, and collaborate with a team of experienced professionals to develop innovative solutions that solve real-world problems. As a passionate and driven individual, I am committed to continuous learning and professional growth, and I am excited to make a positive impact on the organization and contribute to its success.

## TECHNICAL SKILLS

---

<b>Languages</b>	: C, JavaScript, HTML, CSS
<b>Frameworks</b>	: ReactJs, Bootstrap
<b>Libraries</b>	: Material, Redux, React Router
<b>Databases</b>	: MySQL
<b>Dev Tools</b>	: Visual Studio Code, Git
<b>Soft Skills</b>	: Problem Solving, Team Player, Good Communication

## EDUCATION

---

University of Mumbai  
*Bachelor of Engineering in Computer Science*  
Secured 7.32 CGPI

Universal College of Engineering, Mumbai  
Aug 2018 – Aug 2022

## PROJECTS

---

<b>INoteBook:</b>	ReactJs, NodeJs, MongoDB, Express	<a href="#">Source Code</a>
<ul style="list-style-type: none"><li>A <b>CRUD application</b> exposed using a <b>RESTful API</b> made with Node.js.</li><li>Exposed <b>POST, GET and DELETE HTTP</b> methods using Express.</li><li>Implemented a user authentication system using <b>Node.js and MongoDB</b> to allow users to create accounts and securely log in.</li><li>Utilized <b>RESTful API</b> architecture to enable users to create, read, update, and delete notes, securely storing notes data in <b>MongoDB</b>.</li><li>Utilized <b>React Router</b> for smooth and efficient navigation between different views, allowing users to easily manage their notes.</li></ul>		
<b>News Application:</b>	ReactJs, Bootstrap, API	<a href="#">Source Code</a>
<ul style="list-style-type: none"><li>Developed a dynamic web application using <b>ReactJS and Bootstrap</b>, allowing users to fetch and view news articles based on different categories</li><li>Implemented an API integration with a news <b>API</b> to fetch news data based on user-selected categories, utilizing asynchronous programming techniques and <b>RESTful API</b> best practices.</li><li>Added a custom <b>loader component</b> to enhance user experience by providing visual feedback during data fetching process, utilizing <b>CSS animations</b> and <b>ReactJS state management</b>.</li></ul>		
<b>Tesla Clone Website:</b>	ReactJs, Bootstrap, HTML, CSS	<a href="#">Source Code</a>
<ul style="list-style-type: none"><li>Developed a replica of the Tesla website using <b>ReactJS and CSS</b>, closely mimicking the design of the original site.</li><li>Utilized <b>ReactJS components</b> to create a modular and <b>reusable UI</b>, improving <b>code maintainability</b> and reusability.</li><li>Implemented interactive features, such as sliders, car configurator, and navigation menus, using <b>ReactJS event handling</b> and state management.</li></ul>		

## CERTIFICATIONS

---

- [Introduction to Front-End Development](#)
- [Completed Certification on MySQL Database.](#)

## MANAGING SKILLS

---

Managed a group of 20+ students in an event called IEEE. The event was held in our college. The students were there to showcase their projects for the competition.
